# Tamim Almahdi
## Computer Science (BSc) | First Class

As a highly skilled and motivated computer science graduate, I possess strong web development and dev-ops proficiency. I take great pride in attaining a first-class degree in Computer Science from Surrey University, a testament to my dedication and aptitude in the field. I am eager to pursue a career in the tech industry, particularly in entry-level and graduate programs within software development and cybersecurity. I am committed to delivering well-designed and seamless applications from start to finish and am confident in my ability to contribute to the success of any organization.

## Experience

**2021 - 2022**
IBM | Winchester
### Software Developer

14-month internship placement position with IBM as an Infrastructure Specialist working on a development team that provides virtual machines & environments for client demos and workshops.

**Key Responsibilities:**
- Liaise with IBM Technical Sales professionals to confirm and validate event technical requirements
- Help with the deployment of IBM software solutions into our private clouds using React, PhP, Node.js and VMWare
- When the event is being run offsite, arrange the logistics to ship the technology to the required location
- Attend progress and status meetings with the events manager as required
- Be prepared to travel to IBM London branch on occasions to support events run in this location
- Assist with project work, delivering new client centre capabilities as requested
- Possible become part of the development team and work on our web-based booking platform
- Support in any IBM-internal marketing activities like the creation of newsletters etc.

**Achievements:**
- Design, develop, launch, maintain, test React application for our fellow IBM colleagues to request demo & workshop templates
- Run a weekly newsletter to promote the site, templates and workshops
- Work with fellow interns to revamp the intern progress tracking application to React with Laravel back-end

**Skills:** SQL · DevOps · Teamwork · Time Management · JavaScript · React.js

**2019 - Present**
Currys | Farnborough
